Way Forward

WHY WE DO IT

Our Industry is Evolving

We must advance rapidly to stay ahead...

Client Centricity

- Need better engagement...easier to do business with
 - Faster response times
 - More efficient...enhanced interoperability with increased quality of data

Market Opportunity

- Strong industry interest to quote, negotiate, and bind business digitally
- Placing platforms expanding...eliminate need for people to understand and interact with them

Operational Excellence

- E2E message flow
- Reduce manual processing and duplicate data entry
- Optimize process handoffs

Future Ready

- Global standards
- Stronger relationship and interconnectivity to client
- Enhanced capability to lead / partner for industry / technology change

Messaging: Challenge - Further Extending Gains

PROBLEM

Message automation increases overall, but 1st messages don't automate as well as subsequent ones (less than 20% vs 40%). Expectation is higher automation rates overall (60%+)

CAUSES

Lack of consistent referencing (misaligned contract accounting sections)

Contract conditions set up differently

Solution

Post Placement Messages

Digitisation & Automation of E2E value chain

- Maximize level of digitization by applying the ACORD standard and process along the full Reinsurance e2e value chain
- Make best use of the ACORD standard and process to enable straight through processing and increase people involvement in higher value activities

Global Processes and Standards for Placement and Post Placement

- Actively shape the development of ACORD industry standards & processes to enable global implementation for non-life reinsurance treaty and facultative
- Optimize process handshakes between ACORD message sender and receiver to minimize the message Turnaround time

Collaboration to Help Make it Happen

JOURNEY THUS FAR

Thinking Cap

(ACORD enabled processes optimize differently than traditional ones)

Guide Rope

(Following the established roadmaps is safer than freestyling)

Heavy Weather Gear

(Optimists travel light, pessimists survive the journey)

Manual Fallback

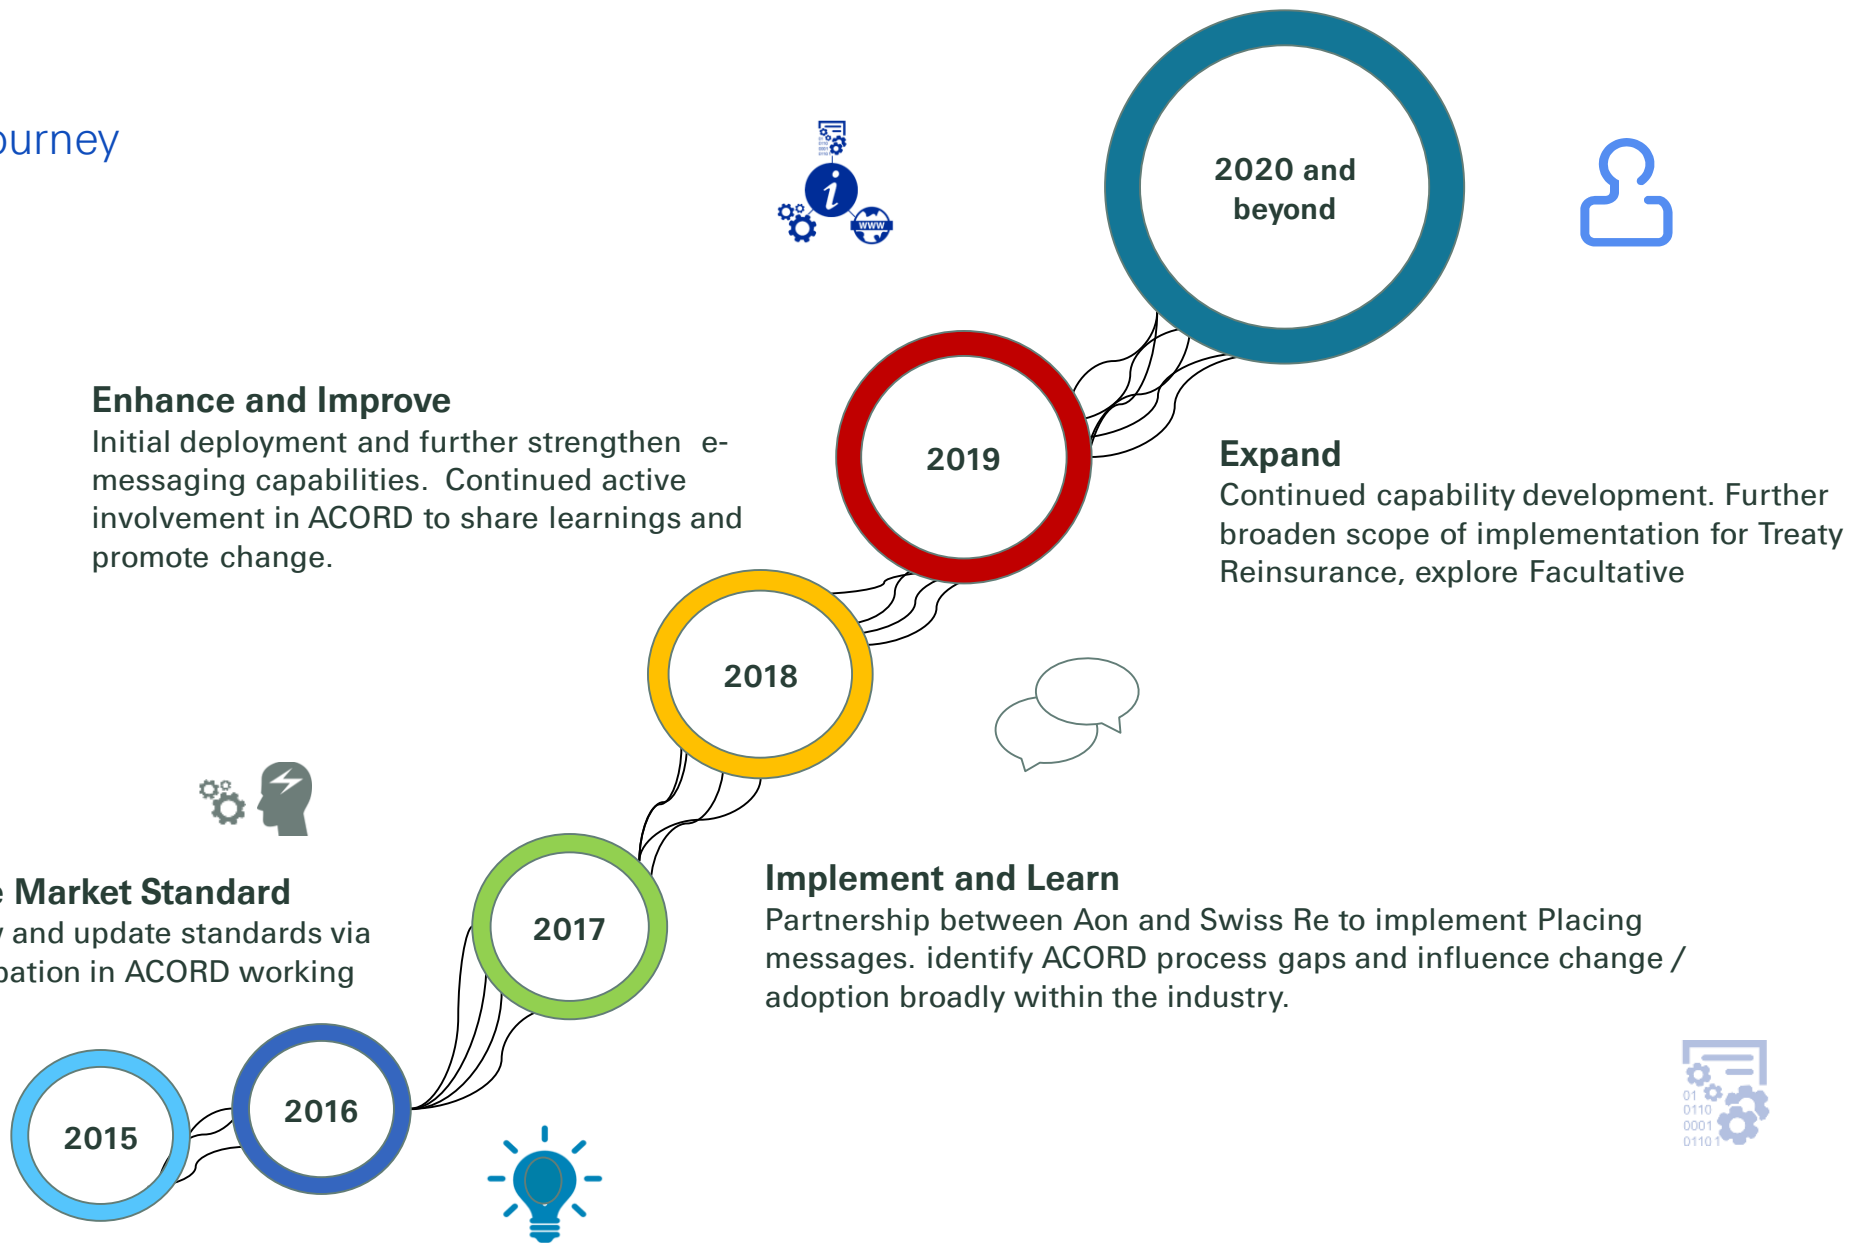

(Occasionally you just have to do it the hard way)

ACORD EXPLORER

The ascent can be arduous and you need the right equipment to succeed...
