- De-identified data
  - No carriers, agencies or consumers are visible

# Delivering Data for Analysis

#### Vertafore's PL Rater Quote Data

#### Overview

#### **Aggregate Data**

**Market Basket Data** 

# Quote data is limited to quote transactions where you quoted

- Broken down by state, by LOB
- Both Personal Auto and Home
- Aggregated market pricing data
  - You can see only your premiums
  - Other premium volumes are aggregated highest, lowest, average, median, mode, range
- Data can be integrated with Carrier data
  - Provides your Quote ID (Carrier Reference ID) so that you can dig deeper into the quote on your system

# Delivering Data for Analysis

#### Vertafore's PL Rater Quote Data

Overview

Aggregate Data

**Market Basket Data** 

#### Quote data across market

- Includes data even if you didn't participate in the quote transaction
- Does NOT include Carrier Reference ID
- Market pricing data for segmentation & analysis
  - Includes additional client, driver and vehicle data
  - Premium volumes highest, lowest, average, median, mode, range
  - De-identified individual premium volume for all quote responses

### Real-world market data for decision making

Understand your performance vs. market Determine competitive pricing and market share Mitigate risks to your organization Identify market growth opportunities Maximize profitability

## Enable analysis to answer business questions

- Am I making the right pricing decisions?
- How are consumers responding to pricing?
- Where do I have the biggest opportunity to improve my bottom line?
- How do I know our premiums are competitive?
- How is the market performing?
- What is the market potential?
